

Jyoti Kumari
Metallurgical Engineering and Materials Science
Indian Institute of Technology Bombay

22B2458
B.Tech.
Gender: Female
DOB:

Examination	University	Institute	Year	CPI / % Credits
Graduation 10th 12th	IIT Bombay Jawahar Navodaya Vidyalaya	IIT Bombay	2026 2020 2022	95.8% 93%
PROFESSIONAL EXPERIENCE				
Data Science Internship Bae & Bee [May'25– Jul'25] Awarded LOR	<i>Premium handcrafted decor startup offering both customized & in-house products via its own E-commerce website</i> - Analysed 100+ SKUs to identify top 30% selling and underperforming products across all categories using Python - Built segmentation (K-Means, PCA), recommenders (SVD, KNN) for personalized merchandising & cross-selling - Classified high-engagement decor designs from competitors data using Random Forest achieving 78% accuracy - Drove brand growth via event marketing at Lil Flea, WNCC (10K+ visitors) and influencers tie-ups with 5 creators			
Data Analytics Internship Avanti Fellows [May'23– Jul'23]	<i>India's leading educational NGO focused on STEM equity in Govt. schools Supported by CSF and Dell Foundation</i> - Scraped and structured 500+ detailed profiles of global women STEM leaders using Python and public databases - Automated data cleaning and processing via Pandas and SQL, boosting data readiness and analysis speed by 40% - Generated insightful dashboards through PowerBI highlighting major representation gaps & regional disparities			
KEY PROJECTS				
Artificial Intelligence & Data Science [Oct'23 -Nov'23]	<i>Prof. M P Gururanjan Built a content based recommender system using NLP & similarity modeling Course Project</i> - Preprocessed and engineered features from 5K+ movies, combining overviews, genre, keywords & director data - Applied Count Vectorizer and cosine similarity, achieving 80% top-5 recommendations for genre-similar movies - Optimized texts processing & similarity computation, reducing latency by 40%, and serialized models using Pickle			
Duplicate Question Detection [Apr'25-May'25]	<i>Built an end-to-end duplicate question detector, deploying it on Heroku for interactive demonstration Self Project</i> - Created NLP pipeline to detect semantically duplicate questions using the 400k+ Quora Questions Pairs dataset - Boosted model accuracy by 10% using NLP Bag-of-Words, fuzzy matching, semantic similarity, sentiment analysis			
Image Classification [Oct'25-Nov'25]	<i>Developed a comprehensive image classification model with an improved and wide usability Analytics Club Project</i> - Implemented & compared ANN & CNN architectures using PyTorch on CIFAR-10 dataset across 10 image classes - Designed CNN with convolution, ReLU, & max-pooling layers, achieving 15% higher accuracy than ANN baselines - Applied data augmentation, evaluating performance using accuracy, precision, recall, F1-score, confusion matrix			
RAG System using LangChain [Nov'25-Dec'25]	<i>Built a LangChain-powered RAG system to enable a question answering over YouTube video transcripts Self Project</i> - Developed an end-to-end RAG pipeline using LangChain, processing 150+ text chunks for semantic retrieval tasks - Leveraged OpenAI embeddings, FAISS vector database to enable low latency similarity search & context retrieval - Implemented prompt-controlled LLM generation and improving answer relevance and minimizing hallucinations			
Stock Market Price Prediction [Mar'25-May'25]	<i>Used Long Short Term Memory (LSTM) to build a model, predict the stock price of Britannia Industries Self Project</i> - Trained and Evaluated model's performance using Root Mean Square Error (RMSE),& achieving an exceptionally low RMSE of only 1.99, clearly indicating prediction accuracy exceeding 98% on test data on 10,000+ price points - Project has a practical applications in the fields of Risk Management, Trading strategies and Algorithmic Trading			
POSITIONS OF RESPONSIBILITY				
Mentor National Education Initiative [Apr'24 – Apr'25]	Leadership	<i>A CSR-backed foundation by TATA Motors partnered with NVS for JEE/NEET prep 500+Mentored 100+ Selections</i> - Selected from 1/100+ IITians nationwide involving extensive interview & peer reviews - Delivered talks to 30+ CSR Heads, Directors & Education Leaders to empower youths		
	Mentorship	- Selected as core member of ENABLED programme based on outstanding performance - Mentored 100+ rural JEE aspirants,curated study plans & conducted guidance sessions		
	Initiatives	Revamped curriculum & added mental wellness modules to boost rural girls retention		
ACCOLADES & EXTRA-CURRICULARS				
Accolades	- Ranked in Top 15% in JEE Adv. among 0.15M candidates 95.8% in 10th grade, CBSE among 1.7 million candidates OBC AIR16 in NTSE stage 1 among 0.1M+ candidates - Ranked in Top 0.4% in JNV among 30K+ candidates			
Sports	Silver in the overall Tug of War General Championship National in Navodaya Samiti Kabaddi Competition			
Culturals	- Featured in an Amazon Mini TV Webseries, 1M+ views Runner-up in online Dance Contest at IIT Bombay Top 10 state finals among 35K+ in Miss Universe India - Secured 2nd in Painting Competition at District level			
Certifications	Successfully completed Advanced Deep Learning (Computer Vision & NLP), Analytics club with hands-on projects			
TECHNICAL SKILLS				
Programming languages: Python, C++, LaTeX, MATLAB Libraries/Frameworks: NumPy, Pandas, Seaborn, Matplotlib, PyTorch, scikit-learn, TensorFlow, OpenCV Other Software: SQL, MS Excel, Tableau, Power BI, Git , Jupyter Notebook, LangChain, Basic Azure AI
